

FORM C - SUBSTANCE USE PREVENTION NARRATIVE

Local Authority: Bear River Health Department

With the intention of helping every community in Utah to establish sustainable [Community Centered Evidence Based Prevention](#) efforts, fill in the following table per the instructions below.

Not every community will be at optimal readiness nor hold highest priority. This chart is designed to help you articulate current prevention activities and successes as well as current barriers and challenges. Please work with your Regional Director if you have questions about how to best report on your communities. For instructions on how to complete this table, please see the Community Coalition Status Tool [here](#).

List every community in your area defined by one of the following:

1. serving one of the 99 Small Areas within Utah
2. serving the communities that feed into a common high school
3. any other definition of community with OSUMH approval.

*All “zero” or “no priority” communities may be listed in one row

CCEBP Community	CCEBP Community Coalition Status (see tool here)	Priority High Medium Low	Notes/ Justification of Priority	List of Programs Provided (if applicable)	Evidence Based Operating System (e.g. CTC, CADCA Coalition Academy, PROSPER)	Links to community strategic plan
Example: Hurricane	D2	High	Key leader board established, CB Getting ready for readiness assessments		Coordinator has been trained in CADCA Academy and is working w/ CTC Coach	http://washingtonprevention.blogspot.com/p/bylaws-of-washington-county-prevention.html
Logan Cone	A5	High	Goal will be to move toward a CTC coalition by the end of the fiscal year. Logan has the potential		CTC	

			capacity to develop a coalition. Logan is the largest city and it could lead to the greatest impact.			
Skyview Cone	A3, A4, A5	Low	BRHD will focus on establishing capacity in the Cone. It's a low priority because we want to start a coalition here but BRHD lacks sustainable funding and capacity to start this coalition		CTC	
Green Canyon Cone	A3, A4, A5	Low	BRHD will focus on establishing capacity in the Cone. It's a low priority because we want to start a coalition here but BRHD lacks sustainable funding and capacity to start this coalition		CTC	
Ridgeline Cone	A3, A4, A5	Low	BRHD will focus on establishing capacity in the Cone. It's a low priority because we want to start a coalition here but BRHD lacks sustainable funding and capacity to start this coalition		CTC	

Mt. Crest Cone	A3, A4, A5	Low	BRHD will focus on establishing capacity in the Cone. It's a low priority because we want to start a coalition here but BRHD lacks sustainable funding and capacity to start this coalition.		CTC	
Rich County	A3, A4, A5	Low	They are a small community with low substance misuse rates. Capacity of BRHD staff time to provide support is low. Goal is to increase community relationships.		CTC	
Box Elder Safe Communities Coalition (Box Elder High Cone and Bear River High Cone)	F	High	BESCC is a long-standing coalition that covers Box Elder County. They have had challenges with membership and completing a coalition process. They are in the process of completing an assessment and finalizing a strategic plan. They are also in the process of exploring how to	Parenting Wisely, Botvin's LifeSkills, Easy Compliance Checks, SFP 10-14	Coalition follows the SPF model but the coordinator is trained in CADCA and CTC. Coordinator is working on making coalition infrastructure using the CTC model.	https://mail.google.com/mail/u/0?ui=2&ik=0e3e64290e&attid=0.1&permmsgid=msg-f:1731367176918742213&th=18070d46340334c5&view=att&disp=safe&realattid=f_l2j6ccot0

			structure two cone coalitions in the county centered around the high schools. They will be building capacity in the community for such a transition.

Area Narrative

For each community identified in the table above, please outline strategic steps the Local Authority is planning to do to improve Community Centered Evidence Based Prevention. A minimum response is at least two sentences per community identified.

Logan Cone: BRHD will be continuously trying to foster more community relationships to build a future coalition to help prevent substance misuse in the area. Logan City will be our main focus in building a cone coalition in FY2023. BRHD has identified a Logan PD officer as a potential champion. Towards the end of FY22 a PE campaign will be completed at the Logan Recreation Center. The BRHD is also utilizing the Know Your Script campaign to build capacity. We hope each campaign leads to strengthened relationships with future coalition members. Specifically, the Logan City Mayor, LCPD and Logan School District. BRHD plans to increase awareness through presentations at council meetings. BRHD plans to have individual meetings with key leaders to assess their readiness. BRHD plans to interact with the Logan School District more to develop relationships with key educational personnel. A core workgroup has been created and will continue to work towards the coalition development and hope of having a key leader orientation.

Skyview Cone: BRHD will work towards identifying and addressing community readiness and capacity needs to increase local substance misuse prevention coalitions. The BRHD will continue to provide programs and services to the community that raise awareness and build support for community-centered prevention. These services include the Parenting Wisely program, community and school presentations. The BRHD will also utilize Parents Empowered and Know Your Script campaigns to continue to mobilize communities.

Green Canyon Cone: BRHD will work towards identifying and addressing community readiness and capacity needs to increase local substance misuse prevention coalitions. The BRHD will continue to provide programs and services to the community that raise awareness and build

support for community-centered prevention. These services include the Parenting Wisely program, community and school presentations. The BRHD will also utilize Parents Empowered and Know Your Script campaigns to continue to mobilize communities.

Ridgeline Cone: BRHD will work towards identifying and addressing community readiness and capacity needs to increase local substance misuse prevention coalitions. The BRHD will continue to provide programs and services to the community that raise awareness and build support for community-centered prevention. These services include the Parenting Wisely program, community and school presentations. The BRHD will also utilize Parents Empowered and Know Your Script campaigns to continue to mobilize communities.

Mt Crest cone: BRHD will work towards identifying and addressing community readiness and capacity needs to increase local substance misuse prevention coalitions. The BRHD will continue to provide programs and services to the community that raise awareness and build support for community-centered prevention. These services include the Parenting Wisely program, community and school presentations. The BRHD will also utilize Parents Empowered and Know Your Script campaigns to continue to mobilize communities.

Rich County: BRHD will work towards identifying and addressing community readiness and capacity needs to increase local substance misuse prevention coalitions. The BRHD will continue to provide programs and services to the community that raise awareness and build support for community centered prevention. These services include the Parenting Wisely program, community and school presentations. The BRHD will also utilize Parents Empowered and Know Your Script campaigns to continue to mobilize communities.

Box Elder County (Bear River and Box Elder High): Currently served by BESCC. BRHD supports the coalition by providing a paid coalition facilitator. The coalition facilitator is providing capacity to work towards establishing cone coalitions in Box Elder and Bear River. The coordinator will continue to try and work with key leaders more to coordinate the cones. BRHD will potentially seek more funding and utilize it to hire another coordinator for Box Elder County.

Create a Logic Model for each program or strategy funded by Block Grant Dollars, PFS, SOR, SPF Rx or State General Funds.

1. Logic Model

Program Name				Cost of Program		Evidence Based: Yes or No	
310: Information Dissemination: Parents Empowered				\$77,070		State Evidence-Based Workgroup	
Agency				Tier Level:
